2. The Project work should be a complete original work of the student.
3. One student should work individually on one Project Work. Co-authored or multiple authored Project Work will not be accepted.
4. Each student has to submit a Project Proposal to the Centre for the purposes for verification. However, submission of project proposal is not mandatory.
5. Each Project Work carries 30 Marks.
6. **Format of the Final Project Work:**

The research paper should mandatorily contain the following components which will precede the content / chapters of the research paper / Project Work :

- Cover Page
- Table of Contents / Index
- Table of Cases(if any)
- Table of Statutes(if any)

7. ***Draft Project Work Proposal:*** Draft Project Work Proposal should contain the following components:

- ***Introduction:*** The researcher is required to introduce the subject and the issue involved in brief.
- ***Statement of Problem:*** The researcher is required to explain the debatable issue involved in a research topic. Such issues could be single or multiple. A Statement of Problem is basically a statement that illustrates a clear vision and the overall method that will be used to solve the problem at hand. Usually used when doing research, a problem statement discusses any foreseeable tangible or intangible problems that the researcher may face throughout the course of the Project Work.
- ***Research Questions:*** A research question is an answerable inquiry into a specific concern or issue. It is the initial step in a Project Work. The 'initial step' means after you have an idea of what you want to study, the research question is the first active step in the Project Work.
- ***Hypothesis:*** A research hypothesis is the statement created by researchers when they speculate upon the outcome of a research or experiment. It is an assumption

with which the researcher begins its research and throughout the Project Work, the researcher should seek to prove or disprove the hypothesis.

- Research Methodology: The method that the researcher adopts to conduct a research i.e. doctrinal or non-doctrinal or empirical. The researcher has to state along with the method the justification of using the method in a Project Work. Please note that the researcher can use a combination of both the methods as long as the researcher is able to justify the usage of the combined method.
- Research Plan / Tentative Chapterization: The researcher is required to briefly state how the researcher intends to go about the research. The researcher is required to categorize the Project Work into broad chapter and provide a gist of contents that the researcher intends to include in each chapter.
